

New innovation. New products. All-new at Allworx:

Allworx® 9224 Phone / Tx 92/24 Expander

9224 Phone with three Tx Expanders

Supersize your business.

The Allworx 9224 is today's premier high-fidelity wideband phone bringing the latest advancements in IP telephony to today's business leaders. Supporting between 24 to 96 programmable function keys (PFKs) with the additional Tx 92/24 Expander units, the Allworx 9224 can deliver a multitude of call appearances, line appearances, speed dials, busy lamp fields and an array of other functions.

This well-designed and stylish phone is the ideal solution for everyone from executives who make and receive a high volume of calls to receptionists who must monitor a huge number of lines all day long. The intuitive design of the Allworx 9224 allows users to upgrade from their old key system with ease – no retraining is necessary.

The Allworx 9224 Phone

The Allworx 9224 IP Phone houses 24 programmable function keys (PFKs) which support 24 line appearances and one-button access to an array of programmable features. Each PFK on the Allworx 9224 Phone is completely programmable and contains its own multi-color LED indicator to alert you to the current status of the associated function or line.

The Allworx 9224 provides you with an abundance of features. It sports a large and easy-to-read 192×64 graphical backlit display with adjustable brightness and contrast for optimal viewing and includes a High-Fidelity Voice Handset that makes your phone calls sound like the person you're speaking with is in the same room. Four dynamic soft keys can be used to navigate this display as they guide you through the call features and functions.

The Allworx 9224 phone allows users to change their presence setting directly from the phone. There are seven different presence states – each of which can be programmed to have its own unique call routing.

Features:

- Huge and easy to read 192 × 64 graphical backlit display
- 24 programmable function keys
- Supports up to 24 line appearances
- 4 Soft Keys
- High-Fidelity Voice Handset
- Reversible handset hook
- Dedicated Park and Hold feature keys
- RJ-11 headset port
- Navigation keys
- Power over Ethernet
- Visual ringing indicator
- Ethernet switch
- Hearing aid compatible
- Speakerphone
- Dedicated presence button
- Adjustable stand/Wall mountable

The Allworx Tx 92/24 Expander

The Allworx Tx 92/24 Expander is the ideal solution for anyone who needs an array of one-touch features or the ability to monitor or route a high volume of calls directly from their phone. Up to three Tx Expander units can be anchored to any Allworx 9224 phone for an additional 24, 48, or 72 PFKs – offering you access to a total of 96 PFKs with just one phone.

Each PFK on an Allworx Tx Expander can be programmed to perform a wide variety of functions which are activated at the simple touch of a button.

The Allworx Tx Expander is incredibly easy to expand. The first unit attaches directly to an Allworx 9224 phone. All Tx Expander units thereafter attach to the preceding Tx unit. Once attached, each unit will be automatically detected by the phone – no manual configuration of the units is necessary. All attached Tx units are powered directly from the Allworx 9224 phone and do not require additional power sources.

Features:

- Automatic detection by the 9224 phone
- 24 programmable function keys
- Connect up to three Expanders for an additional 24, 48, or 72 programmable function keys (maximum of 96 including phone)
- Supports up to 24 line appearances per Expander for a maximum of 96 appearances
- Powered directly from the 9224 phone, no additional power sources are necessary
- Adjustable stand/Wall mountable
